

Drug Information Fellowship

Dear **Prospective Fellow**,

Congratulations! You've come a long way from where you started. You should be proud!

We're thrilled that you're interested in our drug information fellowship! At InpharmD, you'll get to work at the intersection of artificial intelligence and pharmacy intelligence, all while learning how to become a drug-information expert.

Our goal is to provide digital, customized, data-driven responses to drive evidence-based patient care.

So, welcome! We hope you stay.

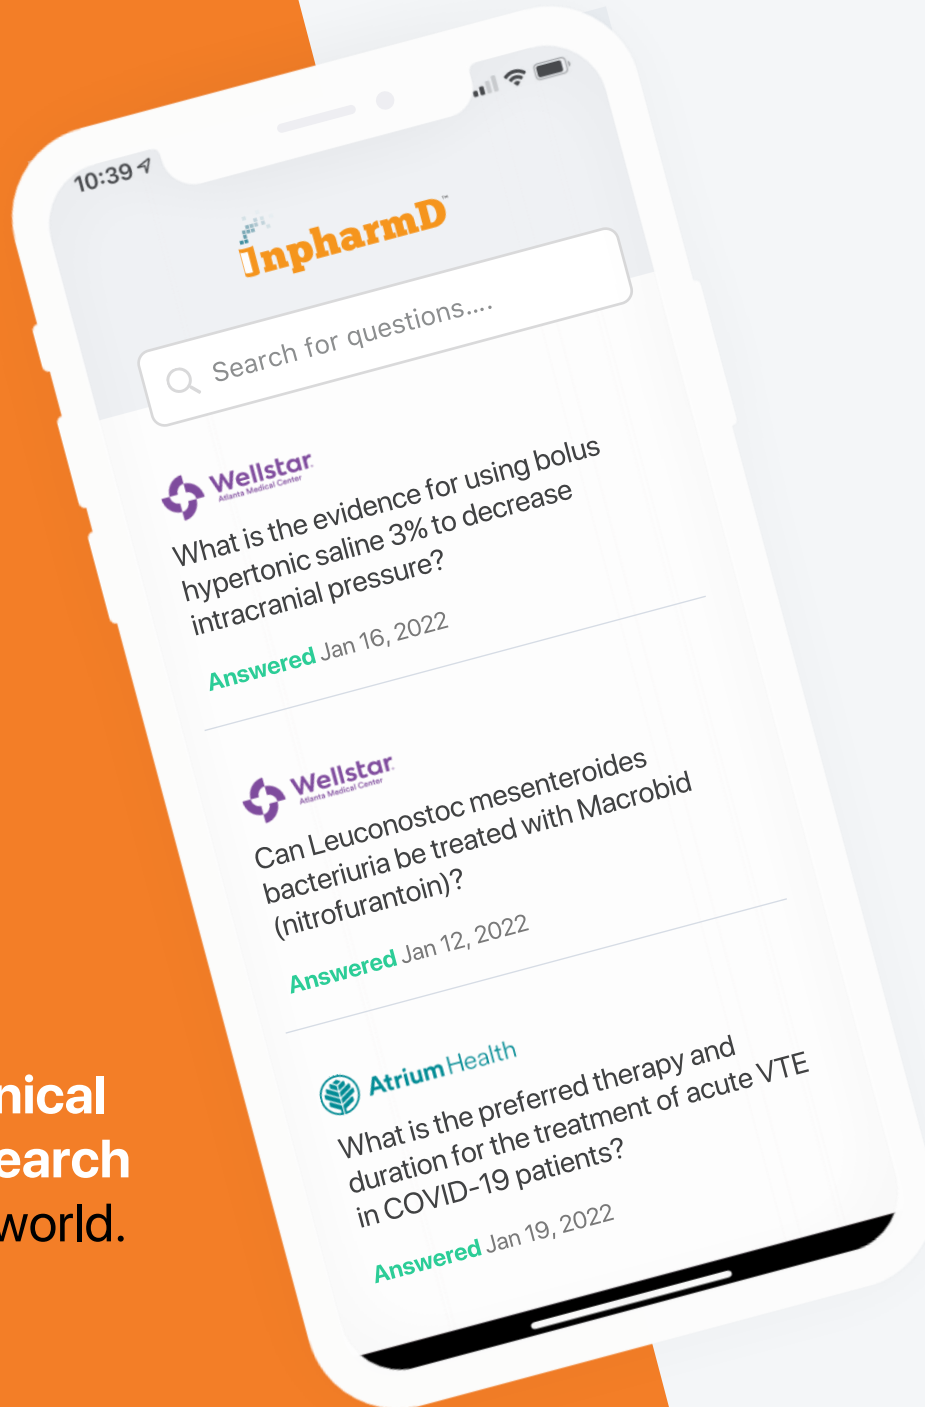

Sincerely,

The InpharmD Leadership Team

CONFIDENTIAL

The largest clinical
pharmacy research
platform in the world.

InpharmD is a centralized, digital, drug-information resource and software.

Providers can ask any question from anywhere, and we'll provide a curated, evidence-based response.

We have also created a P&T arm where we produce class reviews, monographs, coverage libraries, and more.

We are partnered with multiple health systems, have over 10,000 users, and continue to grow everyday!

BACKED BY

The Drug Information Fellowship

InpharmD's DI fellowship is a flexible, one-year program focused on teaching fellows how to effectively retrieve, assess, and communicate medical literature. Fellows will work directly alongside drug information specialists and will have the opportunity to pursue advance training in medical writing, literature appraisal, and biostatistics.

Candidates must graduate from a PharmD program and be eligible for licensure in a U.S. state.

CONFIDENTIAL

Program **Leadership**

Editor-in-Chief, InpharmD

Dr. Rebecca Hoover, PharmD, MBA, BCPS

Dr. Hoover is a former tenured professor and current editor-in-chief and fellowship program director at InpharmD. Her research interests include clinical utility of open-access health information resources as well as information synthesis of clinical trials. When not enjoying all things drug information, Dr. Hoover spends her time dancing badly to good music and writing mystery novels.

Chief Operating Officer, InpharmD

Dr. Neil Patel, PharmD

Dr. Patel has dedicated his career to drug information after a short time in industry. His specialties include sleep aids and GABA modulators. When not reading and criticizing clinical trials, Dr. Patel enjoys rock climbing, watching soccer, and tabletop gaming.

Our Leadership Team

Dr. Ashish Advani
Co-Founder and CEO

Ashish resides in Roswell, GA, with his wife and two toddlers, and enjoys spending as much time with them as possible.

Tulasee Rao Chintha
Co-Founder and CTO

Tulasee resides in Atlanta, GA, with his wife and two children, and enjoys cooking and photography.

Dr. Kevin Shin, PharmD
Director of Drug Information

Kevin has been part of InpharmD growth since his first year in pharmacy school. Now a director of drug information, he enjoys writing in both a professional society among healthcare experts while scheming at night as a dungeon master for his Dungeons and Dragons groups

Dr. Janhavi Punyarthi, PharmD
Director of Brand Development

With a passion for pharmacy innovation, engagement, and content creation in the startup space, Janhavi currently works as the Director of Brand Development for InpharmD. In addition to pharmacy, Janhavi is also a published writer on Medium and has produced work for multiple magazines and online forums. In her free time, she enjoys traveling, reading, and exploring new restaurants and coffee shops.

Dr. Cara Keelan, PharmD, BCPS
Director of Customer Success

Cara is a former director of pharmacy services at a community health system and currently the director of customer success at InpharmD. Her professional interests include transitions of care and excellence in policy development as well as medication safety. Dr. Keelan is passionate about her faith and family. She also enjoys playing tennis and walking her two yorkie puppies.

Current **Fellows**

**Dr. Joy Ugwuanyi,
PharmD**

2022/2023 InpharmD drug information fellow who graduated from The Ohio State University College of Pharmacy. Joy developed a passion for drug information through opportunities to perform DI-related tasks at her rotations and informational interview sessions with DI pharmacists. She was drawn to the InpharmD fellowship because of the welcoming environment and passion for the DI field that was evident from the smallest details like the InpharmD fellowship recruitment post at ASHP Midyear, to her experiences interacting with past fellows and other members of the team. Her current career goals include becoming an experienced and well published drug information pharmacist. Besides drug information, Joy enjoys watching movies and travelling.

**Dr. Dena Homayounieh,
PharmD, MSc**

graduated from West Coast University, School of Pharmacy in 2022. Her past experiences include community pharmacy, medication therapy management, clinical research, and pharmaceutical regulatory affairs. She believes that training at InpharmD provides a broad range of unique learning experiences to actively participate in different roles, such as retrieving and appraising clinical literature, preparing materials for an institutional P&T committee, preparing lectures, teaching, and precepting students. Focusing on quickly, accurately, and succinctly providing evidence-based recommendations and drug information responses are the core skills she is currently working on and hoping to translate in a future job setting. In her free time, she loves cooking and trying new international receipts, reading novels, scuba diving, shopping, and spending time with friends and family.

**Dr. Larissa
Melnik, PharmD**

is a 2022 Northeast Ohio Medical University (NEOMED) graduate, primary author of Integration of 3D printing technology in pharmaceutical compounding: Progress, prospects, and challenges, and formerly NEOMED's founding research fellow for their 3D printing research initiative by Dr. Oyewumi, as well as an investment pitch presenter for NEOMED's biomarker discovery by Dr. Kazumov as a Future Medical Technology Entrepreneurship intern and an Ohio Pharmacists Association 2021 Business Plan Competition finalist. Favorite pastimes of Dr. Melnyk include hanging out with her exchange students and learning to cook their national foods, every kind of designing and blueprinting, shopping, simulation video games, and keeping up with The House of the Dragon series.

Testimonials from Past Fellows

“

“The InpharmD drug information fellowship program truly allowed me to unlock my full potential as a drug information specialist. I was able to learn the ins and outs of how to adequately use evidence-based medicine to help providers and pharmacists make everyday clinical decisions. The experience provided by InpharmD also equipped me with the necessary skills of being able to critically analyze and synthesize medical data, all to improve patient outcomes for our users. The innovation and ideas at InpharmD are endless, and I am grateful to have the opportunity to continue contributing to its success.”

Dylan Brown, PharmD

Drug Information Specialist, InpharmD

InpharmD Fellow 2021/2022

”

“The InpharmD drug information fellowship provides me the unique experience of fulfilling my advanced training on drug information at an innovative digital drug information center. I started to appreciate not only the big clinical picture of each clinical question requested by different types of healthcare providers but also the special role of a drug information specialist in addressing the nuanced clinical perspectives. Through partnership schools, I also refined my teaching skills along with analyzing medical literature and distilling relevant information. I’m looking forward to continued growth with InpharmD in the healthcare landscape.”

Yutong Yang, PharmD, BCPS

Drug Information Specialist, InpharmD

InpharmD Fellow 2021/2022

Application Information

When are applications due?

Applications for early admission are accepted until October 31st of each calendar year. Only currently licensed pharmacists are eligible for early admission.

General applications (for P4 students) are accepted until February 28th of each calendar year.

What is the application process like?

Please email our program director at fellowship@inpharmd.com a curriculum vitae, letter of intent, official transcripts, and two letters of recommendation specific to your performance in pharmacy and/or medical writing.

You'll be notified if you've been accepted for an interview in approximately 2 to 6 weeks.

How many spots are available?

We generally accept 3 fellows.

If accepted to this program, will I be required to move to Atlanta (office headquarters)?

While you are always welcome to live or visit us in Atlanta, please note that you may complete the program from home.

Stipend?

Wage of \$47,000 and 10 personal days are allowed. We are always open to flexible hours for interviews and presentations.
